

(ii) The Regional Administrator may authorize additional people to be on board through issuance of a letter of authorization.

(iii) A certified at-sea observer is on board, as required by § 648.11(g).

(f) *Restrictions on the use of trawl nets.*

(1) A vessel issued a limited access scallop permit fishing for scallops under the scallop DAS allocation program may not fish with, possess on board, or land scallops while in possession of a trawl net, unless such vessel has been issued a limited access trawl vessel permit that endorses the vessel to fish for scallops with a trawl net. A limited access scallop vessel issued a trawl vessel permit that endorses the vessel to fish for scallops with a trawl net and general category scallop vessels enrolled in the Area Access Program as specified in § 648.60, may not fish with a trawl net in the Access Areas specified in § 648.59(b) through (d).

(2) *Replacement vessels.* A vessel that is replacing a vessel authorized to use trawl nets to fish for scallops under scallop DAS may also be authorized to use trawl nets to fish for scallops under scallop DAS if it meets the following criteria:

(i) Has not fished for scallops with a scallop dredge after December 31, 1987; or

(ii) Has fished for scallops with a scallop dredge on no more than 10 trips from January 1, 1988, through December 31, 1994, has an engine horsepower no greater than 450.

#### § 648.52 Possession and landing limits.

(a) A vessel issued an IFQ scallop permit that is declared into the IFQ scallop fishery as specified in § 648.10(b), unless as specified in paragraph (g) of this section or exempted under the State waters exemption program described in § 648.54, may not possess or land, per trip, more than 400 lb (181.4 kg) of shucked scallops, or possess more than 50 bu (17.6 hL) of in-shell scallops shoreward of the VMS Demarcation Line. Such a vessel may land scallops

only once in any calendar day. Such a vessel may possess up to 100 bu (35.2 hL) of in-shell scallops seaward of the VMS demarcation line on a properly declared IFQ scallop trip.

(b) A vessel issued an NGOM scallop permit, or an IFQ scallop permit that is declared into the NGOM scallop fishery as described in § 648.62, unless exempted under the state waters exemption program described under § 648.54, may not possess or land, per trip, more than 200 lb (90.7 kg) of shucked, or 25 bu (8.81 hL) of in-shell scallops. Such a vessel may land scallops only once in any calendar day. Such a vessel may possess up to 50 bu (17.6 hL) of in-shell scallops seaward of the VMS demarcation line on a properly declared NGOM scallop fishery trip.

(c) A vessel issued an Incidental scallop permit, or an IFQ or NGOM scallop permit that is not declared into the IFQ or NGOM scallop fishery as required under § 648.10(f), unless exempted under the state waters exemption program described under § 648.54, may not possess or land, per trip, more than 40 lb (18.1 kg) of shucked, or 5 bu (1.76 hL) of in-shell scallops. Such a vessel may land scallops only once in any calendar day. Such a vessel may possess up to 10 bu (3.52 hL) of in-shell scallops seaward of the VMS Demarcation Line.

(d) Owners or operators of vessels with a limited access scallop permit that have properly declared into the Sea Scallop Area Access Program as described in § 648.60 are prohibited from fishing for or landing per trip, or possessing at any time, scallops in excess of any sea scallop possession and landing limit set by the Regional Administrator in accordance with § 648.60(a)(5).

(e) Owners or operators of vessels issued limited access permits fishing in or transiting the area south of 42°20'N. lat. at any time during a trip are prohibited from fishing for, possessing, or landing per trip more than 50 bu (17.6 hl) of in-shell scallops shoreward of the VMS Demarcation Line, unless when fishing under the state waters exemption specified under § 648.54.

(f) A vessel that is declared into the Sea Scallop Area Access Program as described in § 648.60, may not possess more than 50 bu (17.6 hL) of in-shell

## § 648.53

## 50 CFR Ch. VI (10–1–10 Edition)

scallops outside of the Access Areas described in § 648.59(a) through (e).

(g) *Possession limit to defray the cost of observers in Access Areas for LAGC IFQ vessels.* An LAGC IFQ vessel with an observer on board may retain, per observed trip, up to 1 day's allowance of the possession limit allocated to limited access vessels, as established by the Regional Administrator in accordance with § 648.60(d), provided the observer set-aside specified in § 648.60(d)(1) has not been fully utilized. For example, if the limited access vessel daily possession limit to defray the cost of an observer is 180 lb (82 kg), the LAGC IFQ possession limit to defray the cost of an observer would be 180 lb (82 kg) per trip, regardless of trip length.

[73 FR 20122, Apr. 14, 2008, as amended at 74 FR 20555, May 4, 2009; 75 FR 36569, June 28, 2010]

### § 648.53 Target total allowable catch, DAS allocations, and individual fishing quotas.

(a) *Target total allowable catch (TAC) for scallop fishery.* The annual target total TAC for the scallop fishery shall be established through the framework adjustment process specified in § 648.55. The annual target TAC shall include the TAC for all scallop vessels fishing in open areas and Sea Scallop Access Areas, but shall exclude the TAC established for the Northern Gulf of Maine Scallop Management Area as specified in § 648.62. After deducting the total estimated incidental catch of scallops, as specified at § 648.53(a)(9), by vessels issued incidental catch general category scallop permits, and limited access and limited access general category scallop vessels not declared into the scallop fishery, the annual target TAC for open and Sea Scallop Access Areas shall each be divided between limited access vessels, limited access vessels that are fishing under a limited access general category permit, and limited access general category vessels as specified in paragraphs (a)(3) through (a)(6) of this section. In the event that a framework adjustment does not implement an annual TAC for a fishing or part of a fishing year, the preceding fishing year's scallop regulations shall apply.

(1) *2010 fishing year target TAC for scallop fishery.* The 2010 fishing year TAC is 21,445 mt, 94.5 percent of which shall be allocated to the limited access fishery, 5 percent of which shall be allocated to IFQ scallop vessels, and 0.5 percent of which shall be issued to limited access vessels also issued IFQ scallop permits and that are fishing under general category regulations. These percentages reflect the TAC allocations prior to the deduction of set-asides for observer coverage and research.

(2) [Reserved]

(3) *Access area TAC.* The TAC for each Access Area shall be determined through the framework adjustment process described in § 648.55 and specified in § 648.59. The TAC set-asides for observer coverage and research shall be deducted from the TAC in each Access Area prior to assigning the target TAC and trip allocations for limited access scallop vessels, and prior to allocating TAC to limited access general category vessels. The percentage of the TAC for each access area allocated to limited access vessels, limited access general category vessels, and limited access vessels fishing under general category permits shall be specified in accordance with § 648.60 through the framework adjustment process specified in § 648.55.

(4) *Open area target TAC for limited access vessels.* The open area TAC specified in this paragraph (a)(4) excludes the open area DAS set-aside specified in (g)(1) and (2) of this section, the access area TACs specified in § 648.59, and access area set-asides specified in § 648.60(d) and (e).

(i) *2010 fishing year.* The target TAC for limited access vessels fishing under the scallop DAS program specified in this section is 10,330 mt, including open area DAS for observer and research set-aside TACs.

(ii) [Reserved]

(5) *TACs for IFQ scallop vessels.* The TACs specified in this paragraph (a)(5) have accounted for the access area set-asides specified in § 648.60(d) and (e).

(i) *IFQ vessels without a limited access scallop permit.* For the 2010 fishing year, such vessels are allocated 1,055 mt, which includes both the open area TAC
